EXPERIENCE

Software Developer Intern • **10/2014 – Present**

i.c.stars|*| Chicago, IL

Completing a 1,000+ hour 5 month intensive internship program which utilized project-based learning to help develop business, leadership and technology skills. The internship was divided into 3 sprints using the agile methodology. My team was hired to develop a mobile voting application platform for Seyfarth Shaw, an award winning law firm.

- Developing business leadership by gathering requirements and information for the response to the Request for Proposal on the application being developed for Seyfarth Shaw.
- Effectively solving problems by using critical thinking and analytic skills.
- Programming languages of HTML/CSS, JavaScript, and JQuery for the purpose of creating the application for Seyfarth Shaw.
- Creating and manipulating databases using Microsoft Access, Excel and SQL during the duration of 'Geekweek' and the sprints of the application's development life cycle.
- Working with Solstice Mobile to gain understanding of the agile methodology.
- Working with ThoughtWorks' developers to assist with development of the apps.
- Lead developer for my team using the agile method by making sure we were on task by helping debug problems, helping to create the database, and assisting the developers with user experience design.
- Helped find resources that assisted with time efficiency.
